linkedin | github | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of experience building and maintaining responsive web applications, ERP/CRM modules, and SaaS workflows. Hands-on experience with React, JavaScript, Node.js, REST APIs, MongoDB, and PostgreSQL. Experienced in authentication, third-party integrations, payment gateway integration, responsive UI development, debugging, and application deployment. Focused on clean code, reliable functionality, and user-friendly digital experiences.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, SCSS/SASS, JavaScript (ES6+), React.js, Bootstrap, Material UI
Backend & APIs: Node.js, REST APIs, API integration
Databases: MongoDB, PostgreSQL
Tools & Deployment: Git, GitHub, Vite, ESLint, AWS, Render
Integrations: Firebase Authentication, Google Sign-In, email verification, YouTube API, Razorpay

PROFESSIONAL EXPERIENCE

Full Stack Developer | AgRaz LLP | 3 years

- Develop and maintain responsive web interfaces using React.js, JavaScript, HTML5, CSS3, and related UI technologies.
- Build backend functionality and RESTful APIs with Node.js, supporting application business logic and frontend-to-backend data flow.
- Work with MongoDB and PostgreSQL for data modelling, storage, retrieval, and application data management.
- Contribute to ERP and CRM modules, including user management, data handling, workflow optimisation, and system integrations.
- Integrate third-party services and APIs; support authentication, payment workflows, and data exchange.
- Test and debug application features, resolve defects, maintain code quality, and assist with deployment, configuration, and production support.
- Collaborate on technical requirements and feature delivery to support reliable, user-focused software solutions.

SELECTED PROJECTS

MIVENT — MERN-Stack SaaS Event Management Platform

- Built an event management platform with quotation, billing, project, and team management features.
- Developed responsive React interfaces and REST APIs, with MongoDB-based backend architecture.
- Integrated Firebase Authentication, Google Sign-In, email verification, and the Razorpay payment gateway.
- Implemented subscription plans, secure authentication workflows, and workflow automation for event planners.

ERP/CRM Modules — AgRaz LLP

- Contributed to ERP/CRM functionality focused on user management, data handling, system integrations, and workflow optimisation.
- Implemented frontend features and integrations to support usability and efficient data flow.

EDUCATION

Bachelor of Engineering, Electronics & Telecommunication | MS Ramaiah Institute of Technology | 2020–2023
Diploma, Electronics & Communication | RNS Polytechnic | 2017–2020

LEADERSHIP & ACTIVITIES

- Team Lead, Pradarshana — MS Ramaiah Institute of Technology.
- Volunteer, IETE — Institute of Electronics and Telecommunications Engineers.
